In every circumstance, I am learning that I need You  
whether weak or strong, I will seek you, I will seek you  
After your footsteps firm, I will follow, I will follow  
With all my heart proclaim: You are my hope, You are my strength

Em                    C2                    G                    D/F #

Let Your light shine upon me, Let Your strength rise

G

**You give me hope when all hope is gone**

C

**You give me strength to carry on**

Em

**You lift me up so that I stand strong**

C

**My hope is in You**

**You broke the chords and You loosed the chains**

**Carried my sin and You took my shame**

**You lift me up so that I can sing**

**My strength is in You**

**My hope is in You**

Your hope will never fail, it is faithful, so faithful

Your strength always prevails, it is steadfast, so steadfast

I lift my eyes to You, and You save me, Lord You save me

My boast will always be: You are my hope, You are my strength

G                    C                    Em                    C

My hope is in You alone, My hope is in You alone, My hope is in You alone

My strength is in You alone, My strength is in You alone, My strength is in You alone
